Risk Analysis Matrix

Potential Consequences					Probability Rating					
Hazard Severity Category	Descriptive Word	Personnel Illness/Injury	Equipment Loss(s)	Environmental	A Frequent	B Reasonably Probable	C Occasional	D Remote	E Extremely Improbable	F Impossible
I	Catastrophic	Fatality or Permanent Disabling Injury or Illness	>\$1,000,000	Any incident that potentially harms or adversely effects the general public and has the potential for widespread public concern of Halliburton operations. Can have serious economic liability on the operation.	1	1	1	2	3	3
II	Critical	Severe Injury or Illness	\$200,000 to \$1,000,000	Any incident that presents limited harm to the environment at our facility and requires specialized expertise or resources for correction.	1	1	2	3	3	3
III	Marginal	Minor Injury or Illness	\$10,000 to \$200,000	Any incident that presents limited harm to the environment and requires general expertise and resources for correction.	2	2	3	3	3	3
IV	Negligible	No Injury or Illness	<\$10,000	Any incident that represents limited harm to the environment but requires minor corrective actions (CPI).	3	3	3	3	3	3

Note the numbers 1, 2 and 3... These numbers represent the "Risk Priority Code"

CPR = Códigos de Prioridad de Riesgos

<u>CODIGO</u>	<u>ACCION REQUERIDA</u>
1	<u>ALTO RIESGO</u> : Es imperativo suprimir el Riesgo para bajar su nivel.
2	<u>MEDIO RIESGO</u> : Operación que requiere autorización firmada por la gerencia.
3	<u>BAJO RIESGO</u> : Operación Permitida
